pluralsight
hardcore developer training

What You Will Learn

- **Build a REST-ful API using ASP.NET Web API**

  - How to get started with ASP.NET Web API in a new or existing project

  - How to perform basic Web API Tasks like Routing and Controllers

  - How to use Dependency Injection with Web API

  - How to Map Entities with Models in Resources

  - How to Manage Formatting of Results with JSON and XML

  - How to Secure Web API Services

  - How to Version Web API Services

  - How to Implement other REST Constraints like Caching and HATEOAS

How the Course Works

- **Learn Through Observation**

  - See me build it

  - Understand the workflow and process

  - Make sense of how the different parts work together

Let's Get Started!
